Quotes Gladly Provided

Composing

Basic percussion	\$1.00 per bar per instrument ³
Keyboards	\$2.00 “ “

*Note: Each keyboard is considered a separate instrument.*³ “Instrument” meaning a specific section, such as the snare line.*Transcribing to a Master Score is included. Separate parts per instrument are extra (see ² below). Split parts, if needed, are extra (see ¹ below).*Transcribing Only (*copying existing music*)

All instruments	\$0.50 per bar per instrument
Corrections (<i>if requested to perform</i>)	\$1.00 per bar per instrument

*Clarification and/or rewriting of incorrectly written music (not applicable to illegible writing).*¹ Split parts (*within a section*) \$0.50 per bar per part*Split parts example: A bass line of 4 drums wants individual parts, each containing just the notes for that particular drum. This would be \$0.50 cents per bar X 4, in addition to the \$0.50 cents per bar for the complete bass part on the master score. This complicated procedure requires the notes and rests for each part be extrapolated, re-calculated and adjusted accordingly so that each makes sense as a single part.*

Rewrites \$0.50 per bar / \$40 minimum

*Note: This is charged for every bar that must be physically changed. There is no additional charge to re-publish master or parts scores.*Scores in Sibelius Format (*initial creation of Sibelius files*)*The layout can be in true sampled sounds format⁴, Scorch format, or both.⁵*

Master (percussion only)	included in price
Integrated Master (horns and drums)	\$5.00
² Parts	\$5.00 each
⁴ MP3 recordings (<i>actual drumline sampled sounds</i>)	\$5.00 each
⁵ Scorch addition (.htm and .sib files)	\$15.00 per instrument or part

This pricing is if the Scorch files are done in addition to the sampled sounds format, and applies to each rewrite as well. Refer to the Scorch section of DrumMusic.ca for more information.

Hosting Files on DrumMusic.ca \$10.00 per tune per month

*Includes web page design, with access to Scorch, MP3 and PDF files with optional security access.***For more information and examples, please visit DrumMusic.CA***Allow 2-4 weeks for composed music and 1-2 weeks for transcribed only music (longer for split parts).**All pricing is subject to change without notice. E&OE. All invoicing will be through Corporate Consultants.*
